

PROJECT MANAGEMENT USING JIRA

SPRINT BOARD:

The screenshot shows the Jira SPRINT Board for 'TWEET Sprint 5'. The board is divided into three columns: 'TO DO 1 ISSUE', 'IN PROGRESS 5 ISSUES', and 'DONE 3 ISSUES'. The 'TO DO' column contains one issue, 'Validation message not returned for Password-Confirm password mismatch' (TWEET-30). The 'IN PROGRESS' column contains five issues: 'Docker configuration' (TWEET-13), 'ELK configuration' (TWEET-12), 'Monitoring configuration' (TWEET-24), 'Reports' (TWEET-17), and 'Ability for a registered user to reset their password through forgot password' (TWEET-19). The 'DONE' column contains three issues: 'Rabbit MQ configuration' (TWEET-11), 'Enabling the user to logout from session' (TWEET-28), and 'Ability for a registered user to reset their password through forgot password' (TWEET-19). The board also shows a search bar, filters, and a 'Create' button.

EPIC:

The screenshot shows the Jira EPIC view for 'Tweet App Backend Creation'. The epic is titled 'Tweet App Backend Creation' and has a description 'Add a description...'. It contains a list of child issues, including 'Tweet Offline' (TWEET-15), 'Ability to like a tweet' (TWEET-6), 'Project base configuration' (TWEET-8), 'Sonar build not covering code lines' (TWEET-26), 'Docker configuration' (TWEET-13), 'Ability for a registered user to reset their password through forgot password' (TWEET-19), and 'Rabbit MQ configuration' (TWEET-11). The issues are ordered by their status, with 'DONE' issues at the top and 'IN PROGRESS' issues at the bottom. The board also shows a search bar, filters, and a 'Create' button.

STORY:
